- A. The superintendent of the ROP shall submit, annually, performance objectives and expected outcomes to the Joint Board of Trustees who shall review, revise and approve said objectives.

The superintendent shall prepare a written evaluation based upon the approved performance objectives and expected outcomes, and review such evaluations with the board, in closed session, annually.

- B. The ROP is committed to providing quality support services to teachers and students through a management system that is predicated on quality performance of each member of the management team. Each certificated member of the management team shall receive a written evaluation annually based on objectives, procedures and expected outcomes established by the immediate supervisor and superintendent.

Continued employment of a certificated member of the management team is conditioned upon a performance level and evaluation which are acceptable to both the superintendent and the board.
